

### ELF-212 TOP LABELER

Machine Dimension  
L 43"(1100mm)  
W 21"(550mm)  
H 32"(820mm)

### ELF-512 WRAP AROUND LABELER

Machine Dimension  
L 43"(1100mm)  
W 34"(870mm)  
H 23"(600mm)

ELF SERIES LABELER is your best helping hand in boosting production efficiency.

Automation equipments for small quantity with multiple products packaging line.

The most economical solution to your labeling applications.

No need to use semi-automatic labelers

## THE ELF SERIES

### ELF-212 TOP LABELER

### ELF-512 WRAP AROUND LABELER

ELF SERIES LABELER has the most economical and efficient in terms of capabilities. The aluminum and stainless steel designs makes it portable and durable. The user friendly operating system and microprocessor controls has many added features that can boost production efficiency.

Wide application range up to 180mm packs. ELF series is the smart choice for the small production runs when efficiency and equipment cost is the major consideration. ELF series labelers is the best helping hands available.

#### Features overview:

- Labeling counter: Keeps tracks of the quantity of products processed by the machine.
- Pre-set counter: a quantity can be preset for a production batch and the machine will automatically stop as the quantity is attained.
- Label position set: used to delay label application and adjust label position by simply touching the control screen.
- Five memory slots: for fast and easy label set-up.
- Printer interface: Future installation is accommodated by the printer ports which provides timing controls for flexibility and clear quality prints.
- Stainless steel and anodized hardened aluminum alloys are employed to the structural design for a durable and stable machine.
- Stepper motors are used to provide fast and accurate labeling.
- Wide application range that can handle up to 180mm packages.

- Modular design concepts for fast and simple maintenance. Flexible enough to handle production schedule changes with simple adjustments for rapid changeover. Extra value!

### ELF-212 TOP LABELER

Power Source	AC 110V/220V 50HZ/60HZ 1 Phase
Power Consumption	400 VA
Driver	2 Phase Stepper Motor
Dispensing Speed	630"(16m)/minute
Conveyor Width	160mm
Product Height	Max 7"(180mm)
Label Height	Max 120mm
Label Length	5/8"(15mm) ~ 11 4/5"(300mm)
Label Reel Inner	1 4/5"(46mm) or 3"(76mm)
Label Reel Outer	14 3/5"(375mm)
Space Between Label	1/10"(3mm)
Air Pressure	4 Bars (For Optional Equipment)

### ELF-512 WRAP AROUND LABELER

Power Source	AC 110V/220V 50HZ/60HZ 1 Phase
Power Consumption	460 VA
Driver	2 Phase Stepper Motor
Dispensing Speed	630"(16m)/Minute
Conveyor Width	160mm
Product Diameter	Max 140mm
Label Height	Max 120mm
Label Length	5/8"(15mm) ~ 11 4/5" (300mm)
Label Reel Inner	1 4/5"(46mm) or 3"(76mm)
Label Reel Outer	14 3/5"(375mm)
Space Between Label	1/10"(3mm)
Air Pressure	4 Bars (For Optional Equipment)
